Nadir Bakhsh

Full-stack Developer

Who I Am

I'm **Nadir Bakhsh**, a self-taught **Full-Stack Developer** with a degree in _Computer Science Engineering_.
I have over _7 years of experience_ building scalable, user-friendly, and high-performance web and mobile applications using mostly JavaScript stacks **React, Next.js, React Native, Node.js, and NestJS**.

Throughout my career, I've worked on a wide range of projects, from landing pages, dashboards and SaaS platforms. My expertise in write **code** Frontend or Backend, write clean code and integrating rest APIs,

I am open to opportunities (remote or onsite) where I can further polish and improve my skills. I am looking for a team that believes in processes, writing clean and testable code, and making something big.

Skills

Language	:	JavaScript / ES6
Frontend	:	React.js, Next.js, Remix, React Vite
Backend	:	Nest.js Node.js, Express.js
Database	:	PostgreSQL, MongoDB, MySQL, Firebase
Testing	:	Mocha, Jest, Cypress
Libraries	:	Redux Toolkit, TanStack Query, SWR, Shadcn/UI, Zod, TanStack Table

Experience

Progressive Solution (2024 – Present)
Full Stack Developer

- Integrated multiple third-party APIs, notably Stripe for secure payments.
- Actively participated in daily stand-ups and agile sprint planning.
- Refactored existing features to meet evolving requirements.
- Developed clean, efficient code per product specifications.
- Collaborated with QA team to ensure high-quality software delivery.

Pikky - USA (Jan 2023 – Nov 2024)
Senior Frontend Developer – Remote

- I developed both the Restaurant Dashboard and the Mobile Application
- The Restaurant Dashboard was built using React.js and Mobile App, developed with React Native
- Smooth communication between the frontend and backend. Leading code reviews, I maintained high coding standards and optimized performance

Designocracy (Jan 2021 – Nov 2024)
Senior Frontend Developer

- Delivered high-performance React and Next.js applications with pixel-perfect UI.
- Integrated complex APIs using Axios, React Query, and Redux.
- Awarded "Best Performance" 3 times in a row for consistent on-time delivery.

Expertizo (Feb 2020 – Jan 2021)
Full Stack Developer

- Collaborated closely with designers and system analysts.
- I integrated various APIs, and optimizing data flow and user experience.
- Implemented comprehensive unit tests for active projects

Education

BS, Computer Science (2018 - 2021)
Virtual University of Pakistan

FSC Degree in Pre-Engineering (2014 - 2016)
Govt. Superior s/c College, Street No. 2, Block 2, Shah Faisal Colony, Karachi.

Matriculation in Science (2010 - 2012)
Ataturk Public Scholl, Block 13, Gulistan-e-Jouhar, Karachi

Certifications

Nest.js Masterclass – Backend (Jan to Nov - 2025)
Nest JS with Node and Type-Script to build REST APIs Backend with Type-ORM
PostgreSQL, MongoDB, testing, AWS deployment.

MERN Stack - Mobile & Web (2020 - 2021)
SMIT Center Welfare Trust 2018
